

Tribute to Geoffrey Rendle 1948 - 2017.

Janet Shapiro

Referring to Radical Statistics journals #88, #89, #93 and #95 will reveal that Geoffrey Rendle served on the Troika from 2005 – 2008.

Geoffrey had an unassuming and warm personality, always ready to help. For instance, when I was treasurer he was living nearby and offered to audit the RadStats accounts.

Geoffrey latterly suffered from prostate cancer and died on December 10th 2017. Unfortunately we were unable to announce his death until the February 2018 Conference. We recognise that Geoffrey was an asset to our movement and is sadly mourned.

I am in touch with his wife Louise and she directs us to the website set up in his memory at <https://geoffrey-rendle.muchloved.com> . Those who knew him are welcome to add to the stories on this website.
