

Using Statistics to Understand the Pandemic – and What Will Come Next

Radical Statistics

2021 Conference and AGM

Saturday, 27 February 9:30am-4:30pm

Via Zoom

Registration for the conference is FREE.

(But please consider a donation toward organising costs. See below.)

Presentations

Jennifer Badham on *Real Time Modelling of COVID in Conjunction with Public Health at Local Levels*

Ted Schrecker on *Health Inequality in a Post-pandemic World: The Real Grand Challenges*

Pouria Hadjibagheri (PHE) on *COVID-19 dashboard – Building an Open and Transparent Data Platform*

Sally Ruane on *What Statistics Tell Us About the State of the NHS When COVID Hit AND How It Got to that State*

Mike Sandys (Director of Public Health for Leicestershire CC) on *How a Director of Public Health Has Engaged with Data During COVID and What Issues Have Been Experienced*

Raj Bhopal on *COVID – The Proper Presentation of Epidemiological Data and How the Actuality Has Deviated so Badly from It*

Andrei Morgan on *The Impact of the Coronavirus Pandemic on Perinatal Activity*
There will be ample time for Q&A and discussion.

2021 Annual General Meeting

Saturday, 27 February 5:00 – 6:00 PM

All members and interested participants are welcomed warmly.

Join in for an informal social drinks event on Friday, 26 February at 7:00 PM

Meet old and new members to discuss the conference themes and more.

And – if you're not completely comfortable joining Zoom events, this is a relaxed place to practice. Help will be available if needed.

Please donate to help cover costs:

Suggested donation amount:

£20+ Supporter £10 Low-income Free for students

Radstats runs on a miniscule budget and small amounts make a great difference.

Any amount is gratefully accepted.
